

## Development Academy High School Waiver

Development Academy players currently registered with an Academy Club are expected to forego participation in High School or Middle School soccer. The Development Academy recognizes that there are players who receive financial aid or were accepted into a private high school based on their participation with the high school soccer team. Players who are receiving aid or consideration are eligible to complete the Development Academy high school waiver. All waivers must be signed by both the High School Principal, Development Academy Club's Academy Director, and the player's parent/guardian before being returned via email to [academy@ussoccer.org](mailto:academy@ussoccer.org) by September 9, 2019\*.
